EDUCATION

University of Michigan

Ann Arbor, MI

Bachelors of Science in Computer Science & Statistics

May. 2026

CS Courses: Web Systems, Databases, Architecture, Theory, Data Structures, Algorithms, Linux, Python

Stats Courses: Probability Theory, Computational Statistics, Data Analysis, Linear Algebra, Calculus I-III,

Extra-curriculars: Michigan Hackers, Michigan Research and Discovery Scholars, Michigan Poker Club

TECHNICAL EXPERIENCE

igniteXL Ventures

Remote

Incoming AI-Powered Venture Capitalist Extern

Starting Jun. 2024

United Wholesale Mortgage

Pontiac, MI

Data Engineering & Analytics Intern

May. 2024 - Current

- Piloting a relation **datamart** between code base change & production issues with Data Engineering & Analytics in **C#** & **SQL**, linking it to GUI; will write **Python** prediction models for prophylaxis against poor coding practices

Outlier

Remote

Software Developer Consultant

May. 2024 - Current

- Pioneering user accessibility for LLMs, integrating speech to speech feature for visually impaired users in **Python**

The Michigan Daily

Ann Arbor, MI

Web Developer

Oct. 2023 - Apr. 2024

- Lead error handling & debugging processes, fixing **75+** website errors to make user experience more enjoyable
- Cut down website vulnerabilities by **40%** with team, maintaining site's integrity through user authentication
- Increased website efficiency by **44%** reducing redirects & http requests, raising engagement length by **10%**

Ratna Global Technologies

Newark, CA

Software Engineer Intern

Jun. 2023 - Sept. 2023

- Spearheaded construction of a **Node** & **React** website used to control a vehicle rental service with 50+ locations
- Built a modifiable chatbot using **OpenAI's API** that automates customer service requests based on client data

The Big-DIG Research Lab

Ann Arbor, MI

Undergraduate Researcher Assistant

Apr. 2023 - Jun. 2023

- Engineered a custom **Python** sorting system for school ranks & locations from **750+** schools automatically, eliminating manual labour & guiding lab to conclude data analysis & visualization **2 months** ahead of schedule
- Demonstrated a **99.5%** statistical significance test through supplemental simulations & visual aids in **Python**

London Business School

Remote

Undergraduate Researcher Assistant

Jan. 2023 - Apr. 2023

- Leveraged natural language processing using the **NLTK** library in **Python** to extract & input data from **2500+** contracts into a self launched **SQL** database, optimizing data entry, extraction, & accessing by **25%** for lab use
- Determined **90%** significant difference in structure of internal & external contracts through **Tableau** & **R** analysis

PROJECT EXPERIENCE

C++ Standard Library: Leveraged **C++20** features to implement & optimize data structures & algorithms in standard library, enhancing code efficiency & maintainability while staying up-to-date with language advancements.

SQL Imitation: Mimicked simple SQL functionality in **C++17**, customizing C++ functionality via shell scripting. Harnessed improved SQL functionality to restructure previous research projects, boosting runtime efficiency by **15%**

PROGRAMMING SKILLS

Languages: C/C++, C, Python, Java, R/RStudio, HTML/CSS, Javascript, SQL, LaTeX, Assembly

Technologies: Linux, Git, nano, nvim, MacOS, Windows, Visual Studio, VScode, Xcode, Zed, JIRA, Docker, Tableau

Libraries and Tools: CMake, Numpy, Pandas, Matplotlib, Jupyter Notebook, NLTK, JSON, Pytorch
